b. CARDS will be updated semiannually with the following contents:

SECTION 1 - Lists by title all active Operational and Organizational (O&O) Plans, Justification Major System New Starts (JMSNS), Mission Element Need Statements (MENS), Letters of Agreement (LOA), and Training Device Letters of Agreement (TDLOA). Sequence is by functional area and reference number.

SECTION 2 - Lists by title all active Materiel Need (MN) documents, Qualitative Materiel Requirements (QMR), Small Development Requirements (SDR), Training Device Requirements (TDR), Commercial Training Device Requirements (CTDR), Required Operational Capabilities (ROC), Expedited Essential Required Operational Capabilities (EEROC), Quick Reaction Program Documents (QRPD), Letter Requirements (LR), Training Device Letter Requirements (TDLR), Technical Requirements (TR), Joint Service Operational Requirements (JSOR), and Joint Operational Requirements (JOR). Sequence is by functional area and reference number.

SECTION 3 - Contains by reference number all materiel requirements that are not active. An additional entry shows year and month of deletion and a brief reason for that action. Requirements documents are added to

DAMO-FDR

SUBJECT: Catalog of Approved Requirements Documents (CARDS)

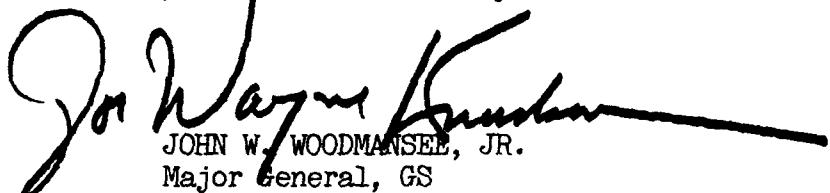

Section 3 when research and development efforts are completed (i.e., Standard Type Classification), when requirements no longer exist or further developmental efforts are not warranted, or if requirements are not funded for two years. Deletion recommendations may be submitted to HQDA at any time by a user representative or materiel developer with rationale.

4. RESPONSIBILITIES: HQDA (DCSOPS) is responsible for the review, revision, and publication of CARDS.

5. CHANGES: CARDS is a dynamic document subject to continuous revision.

SECTION 3

December 1985

SECTION 3 contains by reference number all materiel requirements that are not active. An additional entry shows year and month of deletion and a brief reason for that action. Requirements documents are added to Section 3 when research and development efforts are completed (i.e., Standard Type Classification), when requirements no longer exist or further developmental efforts are not warranted, or if requirements are not funded for two years. Deletion recommendations may be submitted to HQDA at any time by a user representative or materiel developer with rationale.
